Module description

This module provides students with training in how to develop and design life skills programmes, psycho-educational training and individual counselling interventions. This module provides an understanding of persons, ideas and principles in the sphere of human behaviour and examines how to manage structured psycho-educational activities in personal and group interventions and how to evaluate their success.

Module Learning outcomes

After successfully completing this module, you should be able to:

1. Define and differentiate listening skills and psycho-education/life skills.
2. Begin to develop an identity as a helping professional.
3. Develop a basic understanding of Counselling and life-skill interventions and demonstrate ability to evaluate interventions.
4. Demonstrate ability to implement, evaluate and adapt skills learned, in controlled contexts.

Module resources

Most of the resources you'll need for most modules are provided by the Cornerstone Library and Digital Collection. There are only a few exceptions, such as textbooks, that you may have to acquire yourself.

Prescribed resource/s to acquire

Prescribed resources are used extensively for learning activities and assessments, and are crucial to your academic success. Please buy the following *prescribed* resource/s that are essential to your success in this module:

Type	Academic reference	Where available	Estimated price
All readings will be uploaded on the LMS			

For **other prescribed resources** provided by Cornerstone Institute, please consult the lesson plans for this module.
Recommended readings are for additional academic enrichment and are not compulsory. They are listed in the lesson plans.

Module schedule

See the summarised module schedule below. For more details on each week, consult the relevant lesson plan.

Assessment guidelines

Originality of work

All your assessment work must be original. Cheating (using unauthorised resources), plagiarism (using someone else's work without giving due credit) and collusion (sharing work on individual assignments) will be penalised and may result in failure of the module and even expulsion. Consult our latest Academic Guidelines for more information.

When you submit your assignment on the LMS (our learning management system) Moodle, our plagiarism-detection software (Turnitin) will analyse the similarity of your work to other sources. For different study levels we apply different standards. If your similarity score exceeds the accepted standard, we will apply our plagiarism procedures, where penalties range from marks deducted to expulsion (depending on the severity of the case and the student's history).

Also make sure whether/how the use of artificial intelligence (AI), e.g. Chat GPT, is allowed for a particular assessment.

Turnitin similarity scores that will automatically trigger plagiarism procedures*

Module level	Number in module code starts with…	This percentage or higher triggers a plagiarism procedure
Undergraduate basic / 1st-year / NQF 5	5	25%
Undergraduate intermediate / 2nd-year / NQF 6	6	
Undergraduate advanced / 3rd-year / NQF 7	7	20%
Honours / 4th-year / NQF 8	8	
Master's / NQF 9	9	15%
Doctoral / NQF 10	0	

****Note**: Similarity scores lower than the automatic plagiarism procedure triggers may also lead to disciplinary action if the lecturer suspects any of the following:*

- *Intentional plagiarism (deliberately stealing another person's work)*

- *Collusion (working with other students to produce work that is meant to be individual)*
- *Cheating (e.g. paying someone else to do one's assignment).*

Even if your similarity score falls in the 'safe zone' (below the plagiarism procedure trigger), if it is more than 10%, always seek academic support from your lecturer and/or Student Development and Support at academicsupport@cornerstone.ac.za or on campus on the ground floor near Reception.
See our Academic Integrity Policy for more information about plagiarism procedures and penalties.

Data management

For all your assessments, keep copies in at least two different secure places until you have completed your studies.

Submission

All assessments must be submitted on the LMS.

Extension of submission dates

A request for an extension of the submission due date will only be considered if accompanied by sufficient evidence of a severe life-disrupting event such as serious physical or psychological illness or trauma. Please complete the required form (available from extensionrequest@cornerstone.ac.za) and submit it to your lecturer for processing.

Late submission

- Late assessments will be penalised at -5% per calendar day.

No assessments are accepted for marking more than one calendar week after the due date, or after the end of the Assessment Week.

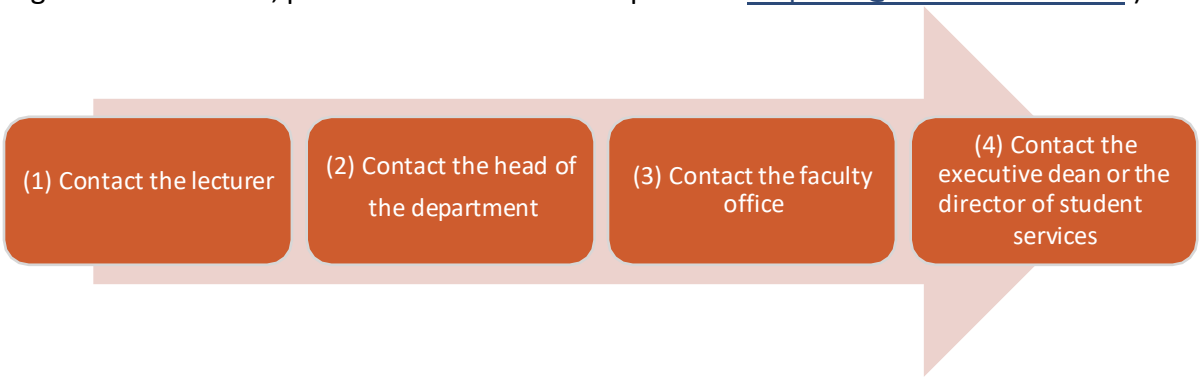
Academic queries

Academic queries relate to all aspects of teaching and learning in the modules. If you have an academic query, follow the procedure below. (For **non**-academic queries, e.g. registration and fees, please contact the our Helpdesk at helpdesk@cornerstone.ac.za.)



Step 1: Contact your lecturer

- Always contact your lecturer first. Their contact details appear on the cover page of this document. If you don't feel confident to do so, ask your class representative to approach the lecturer.
- If it is an important matter, rather email or follow other communication up with an email, using your Cornerstone email address. Give details such as your full name, student number, contact number, the relevant module code and name, and any other details relevant to the situation. Allow at least two business days for the lecturer to respond.
- If it is an urgent matter, call Cornerstone at 021 448 0050 and ask to be put through to your lecturer. (Have their first and last name ready; do not expect the receptionist to know who lectures which module.)
- Only if your query is not resolved, escalate the matter to the next level.

Step 2: Contact the head of the relevant academic department

- If your query could not be resolved at the previous level, contact the relevant head of department as listed on the cover page of this document.
- If you are emailing, forward the entire history of the case to the head for context.
- Give them at least two business days to respond. If it is an urgent matter, rather call them via Cornerstone and afterward follow up in writing.
- Only if your query is not resolved, escalate the matter to the next level.

Step 3: Contact the Faculty Office

- Adhering to the same guidelines as in Step 2, contact the faculty office at facultyadmin@cornerstone.ac.za or 021 448 0050.

Step 4: Contact the executive dean or Student Services

- Adhering to the same guidelines as in Step 2, contact the executive dean at exec-dean@cornerstone.ac.za or Student services at complaints@cornerstone.ac.za
